

# Canada Buffaloberry

*Shepherdia canadensis*

- ❁ A small, loosely branched shrub of rounded outline, 6-8 ft. high and equally as wide, with thick, leathery, gray-green to russet-green foliage.
- ❁ Small, inconspicuous, yellow flowers are followed by yellowish-red, oval-shaped fruits. The orange-dotted white bark give the branches a rusty appearance
- ❁ Also known as Russet Buffaloberry
- ❁ Prefers moist soil but will tolerate drier conditions.
- ❁ Native to all of Canada

**Height: 6-8 Feet**
