

Merry Bells

Uvularia grandiflora

- ❁ Clusters of nodding, narrowly bell shaped pale yellow flowers in mid to late spring that are slightly twisted. Flowers are followed by a three-lobed fruit that rests on the leaves.
- ❁ Graceful woodland plant, great for mass plantings & naturalizing.
- ❁ Thrives in moist well drained soil but will tolerate drought & dry soil
- ❁ Also known as Large Flowered Bellwort
- ❁ Native to Ontario & Quebec

Height: 18-24 Inches

Zone: 3

Full Shade

Partial Sun

Moist, Well-Drained
