

Lingonberry

Vaccinium Vitis Idaea 'Red Candy'

- ❁ Fantastic edible evergreen ground-cover with small dark green glossy leaves. New growth in spring is tinged with red & orange. Self-fertilizing, the fruit is ripe in late fall
- ❁ Produces delicious cranberry-like berries great for sauces, jellies, juices and cooking.
- ❁ Very attractive, easy to grow plants with bright red fruits the size of a small blueberry.
