

Butterfly Weed 'Gay Butterflies'

Asclepias Tuberosa 'Gay Butterflies'

- ❁ Brilliantly coloured mix of fiery red, orange and yellow in June & July that add some sizzle to the hot perennial border. Attracts Monarch butterflies, which depend on this plant for their total food supply.
- ❁ The root of this plant was widely used by natives and pioneers alike to treat bronchial and pulmonary disorders
- ❁ One of the last plants to come up in the spring
